DETAILED ACTION

Claims Objection

1. The Claims numbering are objected to since the claim set has two Claim 10, the first claim 10 depend on claim 1. The second claim 10 (temporary named 10 bis) is independent (see page 25 in the claim set).

Correction is required.

2. Applicant election of claims 1-21,38-52 for prosecution without traverse in the communication with the Office on May 9 2005 is acknowledged.

Election/Restriction

Claims 1-21,38-52 are pending in this application.

- 3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- The claims are directed to the following patently distinct species of the claimed invention:
 - Species I, claim(s) 1-10, is drawn to a non-volatile memory array with special technical features as recited in claim 1.
- Species II, claim(s) 10 bis or 10 independent and 11-20 is drawn to a non-volatile memory array with special technical features as recited in claim 10 independent.

Art Unit: 2818

- Species III, claim(s) 21, is drawn to a non-volatile memory array with special technical features as recited in claim 21.
- Species IV, claim(s) 38-43, is drawn to a non-volatile memory array with special technical features as recited in claim 38.
- Species V, claim(s) 44-46, is drawn to a non-volatile memory array with special technical features as recited in claim 44.
- Species VI, claim(s) 47-49, is drawn to a non-volatile memory array with special technical features as recited in claim 47.
 - Species VII, claim(s) 50-52, is drawn to a non-volatile memory array with special technical features as recited in claim 50.
- 4. Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species (if Applicant does not agree with the claims identified above by the examiner), including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2818

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

- 5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

CONCLUSION

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thinh T Nguyen whose telephone number is 571-272-1790.

The examiner can normally be reached on 9.00 AM 6.00 PM Monday through Friday.

Art Unit: 2818

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, DAVID NELMS can be reached on (571) 272-1787. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9306 for regular communications and (703) 872-9319 for After Final communications.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval [PAIR] system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
